LUXURY TUSCANY

*Steeped in history and wrapped up in romance,
Meet your exclusive retreat in the heart of Tuscany*

Set among the lovely Val di Chiana hills, Palazzo Robicci is nestled in the heart of Castiglion Fiorentino, a truly charming medieval town and the perfect location from where to explore the most famous highlights of Tuscany and Umbria such as Florence, Arezzo, Siena, Montepulciano, Perugia and Assisi.

Palazzo Robicci belongs to our family since 1946 and was exquisitely decorated back in 1832. Its lavish interiors features beautiful frescoes narrating meaningful stories of Greek and Roman Mythology.

MNEMOSYNE

In Greek Mythology, the Muses were inspirational Goddesses who presided over the Arts and encouraged creation, enhancing imagination and vision of the artists. They were nine sisters, born from the union of the God of Gods, Zeus, and a young Titan lady named Menmosyne. Mnemosyne was the goddess of Memory.

It is so inspiring today to understand and remember that, since from the beginning of Man's history, Memory has been considered the essential motive of human expression and the basis of all life and creativity. More widely, we can state that there would be no human heritage without memory, and the will of preserving memory in time.

Palazzo Robicci is the place of Memory: Memory of Arts -for its incredible and fascinating layout of old frescoes and decorations, and Memory of a family, which we want to treasure and share by welcoming our guests in an unprecedented experience of multi layered offers for locals, visitors and professionals.
